**Subject:** Notice of Intent to Initiate Field Work - US Oil Recovery Superfund Site  
**Date:** Monday, June 19, 2017 5:02:37 PM  
**Attachments:** [image002.png](#)

---

Raji – per Section XI, Paragraph 55, please consider this as notice that we intend to initiate a “significant field event” at the US Oil Superfund site on July 5, 2017. Eric is out today and I wanted to make sure we got this to you within the required 15 days. We can discuss the detailed field schedule at your convenience, however, our intent is to initiate the work described in WRN-4 during the first part of the field mobilization starting on July 5. We then plan to begin installing the on-property monitoring wells and then move to the off-property soil borings. However, the schedule could change as we move through the process of getting access to adjacent properties and clearing utilities. Also, weather could impact the schedule as well. I will keep you posted as we get closer to the July 5 start date.

I realize you will be on leave starting July 3<sup>rd</sup>.

Contact me with any questions.

Regards,

Matt
